------------------------------------	--

### Course Outcomes:

### Geography(Core)CBCS

Semester	Course Code	Course Title	Outcomes
	C-1	Geomorphology and Bio-Geography.	<ul style="list-style-type: none"> <li>➤ The students will acquaintance with the basic concept, nature and scope of Geomorphology and Bio-geography.</li> <li>➤ The study of various geomorphic agents and how it responsible for landform formation.</li> <li>➤ They will learn about the distribution of flora and fauna over the region.</li> <li>➤ The students will know the soil formation processes, soil horizon &amp; profile and soil distribution.</li> <li>➤ Develop an idea of human interaction with the environment.</li> </ul>
	C-2	Geomorphic Techniques( Practical)	<ul style="list-style-type: none"> <li>➤ They will familiarize with the construction of different type so fscales.</li> <li>➤ This paper is to make the student understand the various morph metric techniques used in drainage analysis.</li> <li>➤ The students will also learn about the various slope analysis techniques and uses of different type so fscale.</li> </ul>

1st	C-3	Climatology	<ul style="list-style-type: none"> <li>➤ To make the students aware of the composition of atmosphere and various climatic processes. The students will also learn about various factors responsible for the climatic disturbances.</li> <li>➤ They will be able to understand the importance of the ozone layer and the bad effects of Global warming and green-house gases.</li> <li>➤ The students will understand the origin and mechanism of Monsoon, planetary wind, Jet stream, periodic wind, pressure belt, cyclone etc.</li> <li>➤ They will also know the difference climatic schemes and it relevant in the study of weather and climate of the earth.</li> </ul>
	C-3(P)	Practical Based on Climatic Data	<ul style="list-style-type: none"> <li>➤ The main objective of this paper is to make the students gain knowledge of the various weather symbols and to prepare graphs based on climatic data.</li> <li>➤ The students will also able to find out the variability in the distribution of rainfall and the factors responsible for such variation in the pattern of rainfall.</li> </ul>
2nd	C4	Human Geography	<ul style="list-style-type: none"> <li>➤ The student will know about the major themes of human geography and its importance in present days.</li> <li>➤ The students will also learn about population growth and factors responsible for uneven distribution of population in the world.</li> <li>➤ The student will also gain knowledge about the population resource relationship and various types of settlement pattern.</li> <li>➤ The student will gain knowledge about space and society.</li> </ul>
	C5	Geography of India	<ul style="list-style-type: none"> <li>➤ The students will learn about the physical, anthropogenic and economic diversity of India and the factors responsible for such diversities.</li> <li>➤ They can know about the land formation, climate and natural vegetation of India.</li> <li>➤ The students will learn the socio-economic and social composition of India.</li> <li>➤ They will also gain knowledge about the North-Eastern part of India.</li> </ul>
	C5 (P)	Practical on Thematic Cartography	<ul style="list-style-type: none"> <li>➤ The main objective of this paper is to make the students aware of the various applications of the data matrix, mapping and shape index analysis.</li> </ul>

3 <sup>rd</sup>	GGRM 301T4	Cartography	<ul style="list-style-type: none"> <li>➤ The students will aware about the history of map projection and types and uses of different types of map projection.</li> <li>➤ An attempt is also made to enlighten the students about the various surveying methods and the instrument used in it.</li> <li>➤ The students will be able to understand how to do various types of survey and it importance in geography.</li> <li>➤ They will know the application of various modern technique and equipment's use in cartography.</li> </ul>
	GGRM 302P2	Cartographic Techniques (Practical)	<ul style="list-style-type: none"> <li>➤ The main objective of this paper is to enlighten the students with the different types of map projection and its uses.</li> </ul>
	GGRM 302T6	Regional Geography of World	<ul style="list-style-type: none"> <li>➤ This course will help the learners about climate, soil and topography in different continents of the world.</li> <li>➤ The course will also familiarize learner with industrialization and population distribution in developed, developing and underdeveloped nations of the world.</li> <li>➤ They will acquaintance with regional studies of Middle East and South East Asia and the Mediterranean region in this course.</li> </ul>
	GGRM 303T6	Statistical Methods in Geography	<ul style="list-style-type: none"> <li>➤ This main aim to make this course is to make the students aware about the various statistical techniques used in geographical study</li> <li>➤ They will learn the significance of various statistical methods in Geography.</li> <li>➤ They will know about the various types of Sampling and its utility in Geography.</li> <li>➤ The students will know the importance of the use of data in Geography and the idea of theoretical distribution of probability.</li> </ul>
	GGRM 401T6	Economic Geography	<ul style="list-style-type: none"> <li>➤ The goal of this course is to enhance the learner with the basic ideas economic activities like primary, secondary and tertiary activities and its spatio-temporal pattern.</li> <li>➤ The students will be able to know how the factors affecting the location of economic activities.</li> <li>➤ The learners will also acquire the knowledge of some economic development models in relation to agriculture and industry.</li> </ul>
	GGRM 402T6	Environmental Geography	<ul style="list-style-type: none"> <li>➤ The students will acquaintance with the conceptual and theoretical ideas of environment.</li> <li>➤ The learners will also attain the nature and intensity of some burning environmental issues at local, regional and</li> </ul>

4 <sup>th</sup>			➤ Develop an idea about the relationship between man and environment in different geo climatic regions.
	GGRM 403T4	Remote Sensing and GIS	<ul style="list-style-type: none"> <li>➤ The students will gain basic knowledge about the concept of Remote Sensing and GIS.</li> <li>➤ They will be able to know the history of development of Remote Sensing and GIS technology.</li> <li>➤ They will acquaintance with the application of Remote Sensing and GIS technology in Geography.</li> </ul>
	GGRM 403P2	Remote Sensing and GIS (practical)	➤ The objective of the course is to develop some practical knowledge and skills in diversified applications of remote sensing data and technology
5 <sup>th</sup>	GGRM 501T4	Regional Planning and Development	<ul style="list-style-type: none"> <li>➤ This course will help the students to improve the understanding about concept of Region, regionalization, Regional planning and development.</li> <li>➤ The students will gain the knowledge on Evolution and Types of Regional planning.</li> <li>➤ Develop an idea about Choice of a regional planning.</li> <li>➤ The students will be able to build an idea about the difference models for regional planning</li> </ul>
	GGRM 501P2	Regional Planning and Development (Practical)	➤ The basic objective of the course is to enhance the learner in the field of demarcation and distribution of resources
	GGRM 502P2	Population Geography (Practical)	➤ The main objective of the course is to develop the cartographic ideas for the representation of major Demographic data.
6 <sup>th</sup>	GGRM60T6	Evolution of Geographical Thought (theory)	<ul style="list-style-type: none"> <li>➤ On completion of the programme students will be able to:-</li> <li>➤ Know about the development of Geography in the ages of Classical, Medieval and Modern period.</li> <li>➤ Know the various models and theories in geography.</li> <li>➤ Know the contribution made by various countries to geography fields</li> <li>➤ Know the paradigm shift in geography</li> <li>➤ Know various school of geographical thought.</li> </ul>
	GGR602T6	Disaster Management	<ul style="list-style-type: none"> <li>➤ Know the meaning and type of Hazards and Disasters</li> <li>➤ Know the concept of Vulnerability and susceptibility</li> <li>➤ Know and learn on how to reduce the risk of disaster</li> <li>➤ The students will get hand on experience as they will be doing an extensive survey over an area to evaluate the nature, intensity, frequency and impact of a Hazard/ disaster and suggesting possible mitigation</li> </ul>

--	--	--	--

**Course Outcomes: Geography(Generic Elective) CBCS**

Semester	Course Code	Course Title	Outcomes
1 <sup>st</sup>	GE1	Disaster Management	<ul style="list-style-type: none"> <li>➤ The main objective of this paper is to make the students aware about the concepts of hazards, disasters and their positive and negative consequences.</li> <li>➤ In this paper an attempt has also been made to prepare the students about the Do's And Don'ts during and post disaster.</li> </ul>
2 <sup>nd</sup>	GE2	Spatial Information Technology	<ul style="list-style-type: none"> <li>➤ The main objective of this paper is to enlighten the students about the application of various spatial information technologies and the data used for spatial information in day today life.</li> <li>➤ The Students will be familiar with the Data Source, Structure, Interpolation and Modelling.</li> </ul>
3 <sup>rd</sup>	GE3	Rural Development	<ul style="list-style-type: none"> <li>➤ The main objective of this paper is to make the students understand meaning of rural development and the impact of rural economies on the economy of the country</li> </ul>

------------------------------------	---

### **Course Outcomes:**

### **Political Science (Core) CBCS**

<b>Semester</b>	<b>Course Code</b>	<b>Course Title</b>	<b>Outcomes</b>
<b>1<sup>st</sup></b>	C1	Understanding Political Theory	<ul style="list-style-type: none"> <li>➤ Introduces the students to the idea of political theory, its history and approaches, and an assessment of its critical and contemporary trends.</li> <li>➤ Students will be able to reconcile political theory and practice</li> </ul> <p>Through reflections on the ideas and practices related to democracy.</p>
	C2	Constitutional Government and Democracy in India	<ul style="list-style-type: none"> <li>➤ This course acquaints students with the constitutional design of state structures and institutions, and their actual working over time. The Indian Constitution accommodates conflicting impulses (of liberty and justice, territorial decentralization and a strong union, for instance) within itself.</li> <li>➤ The course traces the embodiment of some of these conflicts in constitutional provisions, and show these have played out in political practice. It further encourages a study of state institutions in their mutual interaction, and</li> </ul>

			in interaction with the larger extra-constitutional environment.
2 <sup>nd</sup>	C3	Political Theory- Concepts and Debates	<ul style="list-style-type: none"> <li>➤ This course would help the student familiarize with the basic normative concepts of political theory. Each concept is related to a crucial political issue that requires analysis with the aid of our conceptual understanding.</li> <li>➤ This exercise is designed to encourage critical and reflective analysis and interpretation of social practices through the relevant conceptual tool kit.</li> <li>➤ This course also introduces the students to the important debate sin the subject.</li> </ul>

	C4	Political Process in India	<ul style="list-style-type: none"> <li>➤ Actual politics in India diverges quite significantly from constitutional legal rules. An understanding of the political process thus calls for a different mode of analysis-that offered by political sociology.</li> <li>➤ This course maps the working of modern institutions, premised on the existence of an individuated society, in a context marked by communitarian solidarities, and their mutual transformation thereby. It also familiarizes students with the working of the Indian state, paying attention to the contradictory dynamics of modern state power.</li> </ul>
3 <sup>rd</sup>	C5	Introduction to Comparative Government and Politics	<ul style="list-style-type: none"> <li>➤ This is a foundational course in comparative politics.</li> <li>➤ The purpose of this course is to familiarize students with the basic concepts and approaches to the study of comparative politics while analysing various themes of comparative analysis in developed and developing countries.</li> </ul>
	C6	Perspectives on Public Administration	<ul style="list-style-type: none"> <li>➤ The course provides an introduction to the discipline of public administration. This paper encompasses public administration in its historical context with an emphasis on the various classical and contemporary administrative theories.</li> <li>➤ The course also explores some of the recent trends, including feminism and ecological conservation and how the call for greater democratization is restructuring public administration.</li> <li>➤ The course will also attempt to provide the students a comprehensive understanding on contemporary administrative developments.</li> </ul>
	C7	Perspectives on International Relations and World History	<ul style="list-style-type: none"> <li>➤ This paper seeks to equip students with the basic intellectual tools for understanding International Relations. It introduces students to some of the most important theoretical approaches for studying international relations. It provides a fairly comprehensive overview of the major political developments and events starting from the twentieth century. Students are expected to learn about the key milestones in world history and equip them with the tools to understand and analyze the same from different perspectives.</li> <li>➤ A key objective of the course is to make students aware of the implicit Euro- centricism of International Relations by highlighting certain specific perspectives from the Global South.</li> </ul>

4 <sup>th</sup>	C8	Political Processes and Institutions in Comparative Perspective	<ul style="list-style-type: none"> <li>➤ In this course students will be trained in the application of comparative methods to the study of politics. The course is comparative in both what we study and how we study</li> <li>➤ In the process the course aims to introduce undergraduate students to some of the range of issues, literature, and methods that cover comparative political.</li> </ul>
	C9	Public Policy and Administration in India	<ul style="list-style-type: none"> <li>➤ The paper seeks to provide an introduction to the interface between public policy and administration in India. The essence of public policy lies in its effectiveness in translating the governing philosophy into programs and policies and making it a part of the community living.</li> <li>➤ It deals with issues of decentralization, financial management, citizens and administration and social welfare from a non-western perspective.</li> </ul>
	C10	Global Politics	<ul style="list-style-type: none"> <li>➤ This course introduces students to the key debates on the meaning and nature of globalization by addressing its political, economic, social, cultural and technological dimensions. In keeping with the most important debates within the globalization discourse, it imparts an understanding of the working of the world economy, its anchors and resistances offered by global social movements while analyzing the changing nature of relationship between the state and trans-national actors and networks.</li> <li>➤ The course also offers insights into key contemporary global issues such as the proliferation of nuclear weapons, ecological issues, international terrorism, and human security before concluding with a debate on the phenomenon of global governance.</li> </ul>
5 <sup>th</sup>	C11	Classical Political Philosophy	<ul style="list-style-type: none"> <li>➤ This course goes back to Greek antiquity and familiarizes students with the manner in which the political questions were first posed.</li> <li>➤ Then in this course Machiavelli comes as an interlude inaugurating modern politics followed by Hobbes and Locke. This is a basic foundation course for students.</li> </ul>
	C12	Indian Political Thought-I	<ul style="list-style-type: none"> <li>➤ This course introduces the specific elements of Indian Political Thought spanning over two millennia. The basic focus of study is on individual thinkers whose ideas are however framed by specific themes.</li> <li>➤ The course as a whole is meant to provide a sense of the broad streams of Indian thought while encouraging a specific knowledge of individual thinkers and texts. Selected extracts from some original texts are also given to discuss in class.</li> </ul>

6 <sup>th</sup>	POLSC-C13	Modern Political Philosophy	<ul style="list-style-type: none"> <li>➤ Philosophy and politics are closely intertwined. This paper explores convergence by identifying four main tendencies here.</li> <li>➤ Students will be exposed to the manner in which the questions of politics have been posed in terms that have implications for larger questions of thought and existence.</li> </ul>
	POLSC-C12	Indian Political Thought-II	<ul style="list-style-type: none"> <li>➤ The course introduces a wide span of thinkers and themes that defines the modernity of Indian political thought.</li> <li>➤ The objective of this paper is to study general themes that have been produced by thinkers from varied social and temporal contexts.</li> </ul>

Course Outcomes: Political Science(Generic Elective)CBCS			
Semester	Course Code	Course Title	Outcomes
1 <sup>st</sup>	GE-1A	Nationalism in India	<ul style="list-style-type: none"> <li>➤ The purpose of this course is to help students understand the struggle of Indian people against colonialism.
